Memo to Coal File:

RE: Beaver Creek Coal Company
Wild Horse Ridge
~~GEP/015/007~~
Emery County, Utah

The Wild Horse Ridge exploration area was inspected on September 2, 1983 by Joe Helfrich from the Division. There was no one available to accompany him on the inspection from Beaver Creek Coal Company (BCCC). Access to the exploration site was not feasible at that time as a result of excessive erosion on the access road and large boulders blocking the road. Bart Kale will contact BCCC in view of the excessive erosion and accessibility to the exploration site.

JOSEPH C. HELFRICH
